

LILLIAD - Innovation Learning Center

A learning center which is part of a network of Learnings Centers in the Nord-Pas de Calais area

LILLIAD - Innovation Learning center

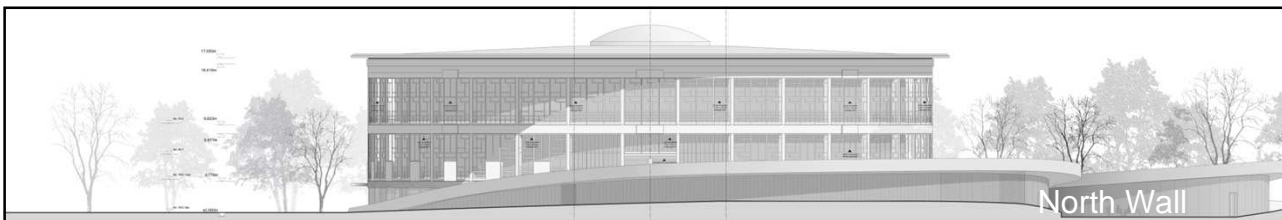

LILLIAD - Innovation Learning Center Lille 1 University - Sciences et technologies

A Learning center for academics and students

But also for :

- Colleges
- Companies and public bodies involved in innovation process and support
- General public

Something new in France, merging together several activities in the heart of the campus

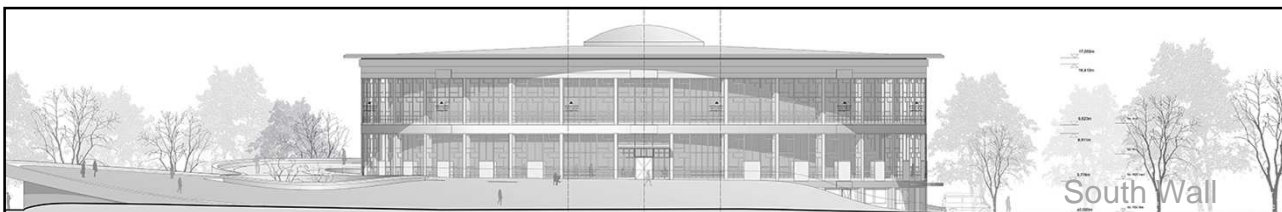

Creating a place to support the culture of innovation : WHY ?

We have several scientific and pedagogical issues to tackle :

- Developing the eagerness for sciences
- Showing the high quality and usefulness of our research
- Helping students and teachers on their way to the « innovation spirit »
- Showing the gold road from public research to jobs and business opportunities
- Remodeling the heart of the campus

Matching the ambitions of the Regional Council :

- Going further towards opening the university to its environment - city of Lille
- Developing further partnerships in the regional area
- Being part of the local and regional ecosystem of innovation

Creating a place to support the culture of innovation : WHAT FOR ?

Showing INNOVATION

- A SHOWCASE (exhibitions, events and promotion)
- A DEMONSTRATOR (place, services)

Supporting INNOVATION

- A SUPPORT to the « design and innovation spirit »
- A PLACE for people to meet (open places, informal meetings and event facilities)

Designing INNOVATION

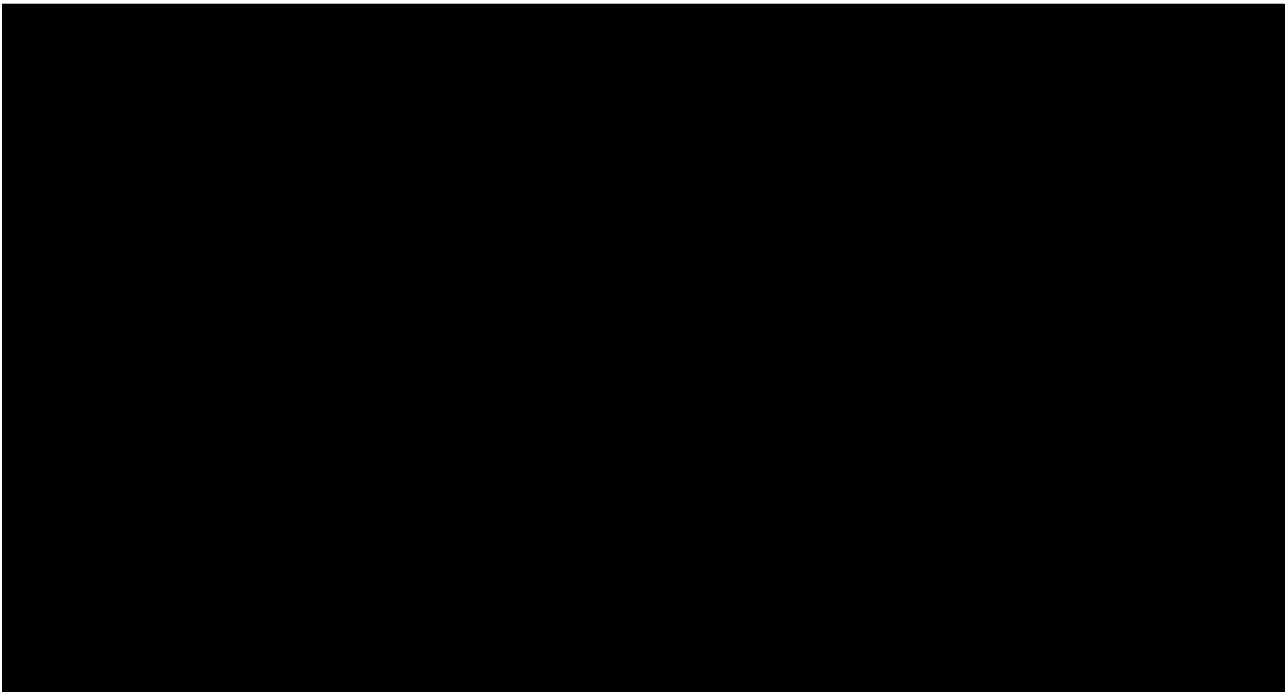

- Developing a specific SCIENTIFIC PROGRAM regarding innovation
- Creating a THINKTANK to discuss social, moral and ethical issues

Inserting INNOVATION in the teaching and learning process

- Learning in a DIFFERENT WAY (services, spaces, informal interactions)
- CROSSING pedagogical and library TOOLS to build the suitable environment for users

Farewell to « the old library »

Cabinet d'architectes Auer Weber

LILLIAD : Merging 3 dimensions

LILLIAD : Merging 3 dimensions

Events

- A specific scientific program regarding innovation
- A place to support events organised by research units
- The main social place in the heart of the university
- information desk : RUBIS (2014)

Xperium

- Promoting research and innovation
- A key equipment on the way to rebrand our university (general public, colleges, companies)

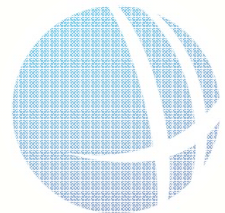

Towards the « learning » library

- Multi-tasks room to support new teaching concepts
- 50 workings rooms fully equipped,
- A new information desk : RUBIS (2014)

Factual elements

Lille 1 University

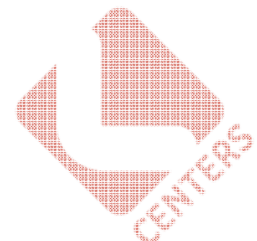

- A **research university** : sciences, technologies and economics
- **20.000 students** and **3.000 staff members**
- A **large and high-level cluster of companies** next to the campus
- A Learning Center with a **network of 15 branch libraries**

Factual elements

LILLIAD Innovation Learning center

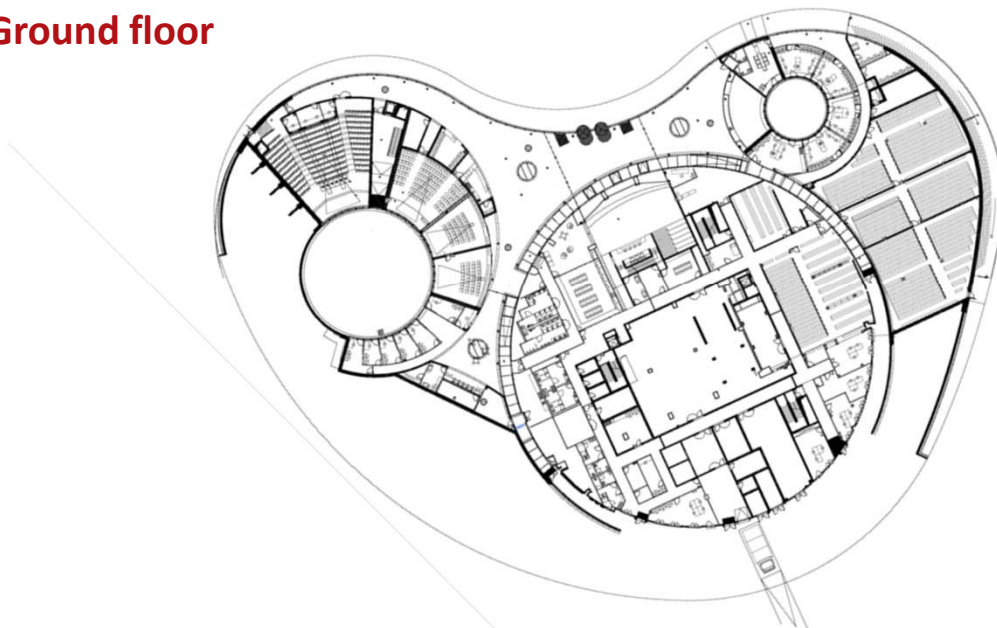

- **Refurbishment and extension** of the former library building
- **10.000 square meters**
- **105.000 books** in public access and **10 linear kilometers** of shelves in stacks
- **Up to 1.500 seats**
- **Facilities for events up to 400 people**
- A fully **pedestrian area** around the Learning Center

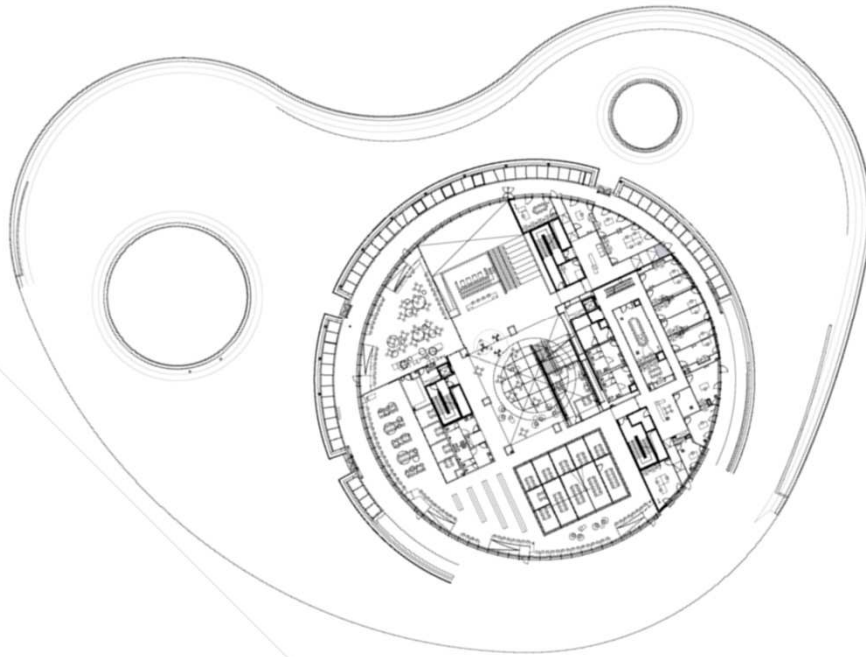

Air view

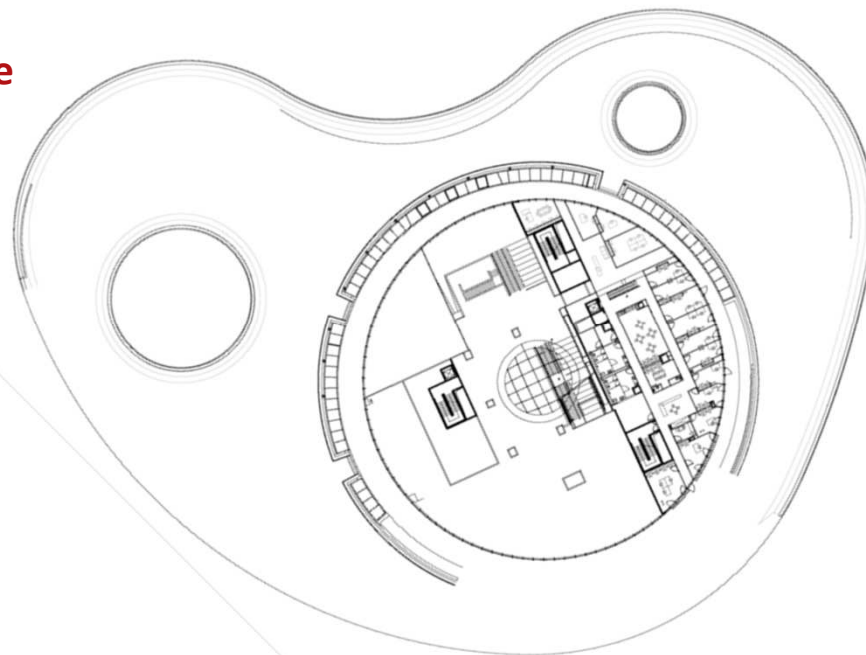

Ground floor

1st floor

Mezzanine

2nd floor

Planning the Innovation Learning Center

- 2010 : validation of the scientific program
