British Library awarded Grade I-listed building status

Structure once called 'one of the ugliest buildings in the world' in parliament and denounced by Prince Charles now 'one of England's finest modern buildings'

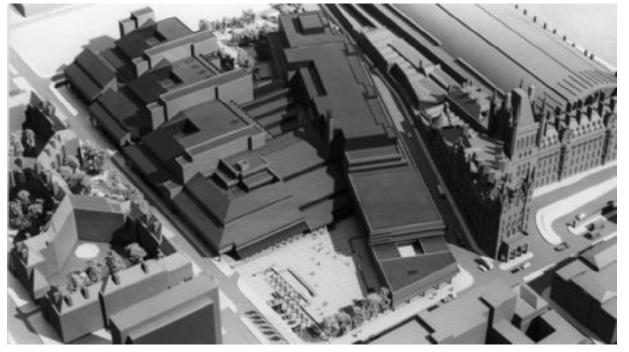

A The British Library, the largest public building to be built in the UK in the 20th century. Photograph: DCMS/PA

The British Library, once denounced by Prince Charles as a building suiting an academy for secret policemen, has been awarded the highest heritage honour, Grade I-listed building status.

The institution, on Euston Road, London, now a victim of its own success with scholars and researchers complaining of students and tourists crowding the reading rooms and cafes, was opened by the Queen in June 1998 - more than 20

Green Spaces & Diverse Habitats

Ξ,

Sustainable Development

- _IBRARY
- 1. Partnerships to magnify the positive outcomes of the BL project across wider communities
- 2. Creating an inclusive place that adds social value to the local Camden area and community
- 3. Targeting net zero carbon and future resilience through integrated design
- 4. Creating a hub that supports innovation and delivers economic sustainability
- 5. Using the available space to focus on biodiversity quality (not quantity)
- 6. Using the Library project to support local residents and stakeholders
