## FOCUS AREAS

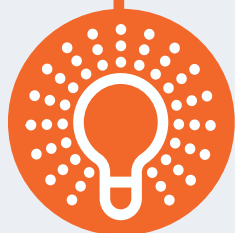

We drafted a new **strategy and vision** to lead LIBER libraries through the next 5 years.

**2018-2022  
Strategic  
Framework**

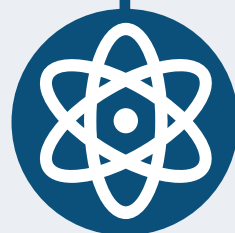

### Copyright Reform

We visited **8 leading MEPs** and made **27 trips to Brussels** to push the case for copyright reform that helps libraries and their users.

LIBER's President joined the European Commission's **Open Science Policy Platform** and Open Science was the core focus of our 2016 Annual Conference.

### Open Science

### Working Groups

New Working Groups on **Open Access** and **Metrics** were launched, making a total of **seven LIBER Working Groups**.

"There are strong expectations placed upon us as libraries to **develop strong policies and infrastructures**, to communicate the benefits of **open science**, to **develop skills and remove barriers** so that science can flourish. Through our strategy, and the dedication of LIBER's Executive Board, Steering Committees and Working Groups, **LIBER is helping its libraries in all of these areas.**"

-Kristiina Hormia-Poutanen, LIBER President
