LILLIAD - Innovation Learning center

A Learning center for academics and students

But also for:
• Colleges
• Companies and public bodies involved in innovation process and support
• General public

Something new in France, merging together several activities in the heart of the campus
Creating a place to support the culture of innovation: **WHY?**

**We have several scientific and pedagogical issues to tackle:**

- Developing the eagerness for sciences
- Showing the high quality and usefulness of our research
- Helping students and teachers on their way to the « innovation spirit »
- Showing the gold road from public research to jobs and business opportunities
- Remodeling the heart of the campus

**Matching the ambitions of the Regional Council:**

- Going further towards opening the university to its environment - city of Lille
- Developing further partnerships in the regional area
- Being part of the local and regional ecosystem of innovation

Creating a place to support the culture of innovation: **WHAT FOR?**

**Showing INNOVATION**

- A SHOWCASE (exhibitions, events and promotion)
- A DEMONSTRATOR (place, services)

**Supporting INNOVATION**

- A SUPPORT to the « design and innovation spirit »
- A PLACE for people to meet (open places, informal meetings and event facilities)

**Designing INNOVATION**

- Developing a specific SCIENTIFIC PROGRAM regarding innovation
- Creating a THINKTANK to discuss social, moral and ethical issues

**Inserting INNOVATION in the teaching and learning process**

- Learning in a DIFFERENT WAY (services, spaces, informal interactions)
- CROSSING pedagogical and library TOOLS to build the suitable environment for users
Farewell to « the old library »
