

LIBER 2022 KNOWLEDGE CAFÉ INVITATION

LIBER's strategy task force is pleased to invite all Participants to the Knowledge Café session taking place on Wednesday 6 July.

When the [current LIBER strategy](#) ends in December 2022, the new strategy will steer all LIBER activities, services, Working Groups, and more. After receiving highly valuable input at the Knowledge Café editions held in [June](#) and [December](#) 2021, [the strategy framework](#) has been finalised and approved by the Executive Board and will be submitted for approval by the 2022 Meeting of Participants.

The task force is now working on the final phase of the strategy development process. At the Knowledge Café attendees will be invited to share their thoughts on how to best implement the vision of the 2023-2027 strategy.

To ensure that LIBER continues to successfully represent the interests of the European research library community, you are kindly invited to join the Knowledge Café at the Annual Conference in Odense to discuss the framework and implementation of LIBER's strategy for 2023-2027.

Your participation will be much appreciated, and we look forward to seeing you in Odense on Wednesday 6 July.

Note: if you would like to contribute to discussions focused on the continuation of LIBER's existing Working Groups during the next strategic period, you are very welcome to join the strategy roundtable discussions on 20 April and 20 May. You can read more about these events elsewhere in the March Mailing.
