

PROPOSAL FOR INDEXING PARTICIPANT FEES FOR 2026

INDEXING PARTICIPANT FEES 2026

As approved by the Executive Board and Meeting of Participants (MoP) in 2022, Annual Fees will be adjusted for inflation on a yearly basis, starting in 2023.

The fees will be indexed based on the [consumer price index](#) that is calculated monthly by the Dutch Central Bureau for Statistics (CBS), based on the inflation level in the Netherlands and referencing the index for the previous financial year (2024). LIBER will continue to maintain transparency in its financial model, with tier distinctions based on national GDP per capita.

2026 Annual Fees Indexing

In 2024 inflation level in the Netherlands was 3.3% on average based on the 2024 Consumer Price Index for the Netherlands. This Dutch index was chosen as nearly all LIBER costs are incurred in the Netherlands. The Board approved the indexing of the 2026 LIBER Fees at 3.3%
